Amber

Please upload this email to Remediation Project # 5076, Location # 335884.

Jessica

This Form 4 has been approved. Based on review of information presented it appears that no further action is necessary at this time. However, should future conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards or if ground water is found to be significantly impacted, further investigation and/or remediation activities may be required at the site.

Hi Stan,

The PCU 296-7A Pit Closure NOC request, REM#5076, was submitted for closure via eForms today (DOC#400571789). I have attached the eForm sundry, NOC request cover letter and Form 27 including date of completion. Thanks for your help and please touch base with any comments or questions.

Jes
