Doug,

Could you please add in the following comment and changes to Doc. 400545193:

Please change the interim reclamation date to 7/14/2014

And insert the following statement for the pipeline description—

Future pipelines will consist of:  
4 inch Carbon Steel Gas pipeline  
4 inch Carbon Steel Oil pipeline  
4.5 inch Fiberspar Water pipeline.

I would appreciate if you would add and change these two things for me.
