13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomplate in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

In preparation to P&A the Fed 1-30 a casing inspection log was ran. It was determined that running a liner would allow this well to be saved. Saga Petroleum proposes to repair the well via the attached procedure. Work will commence as soon as approval is received and equipment can be moved to location. Current and proposed wellbore diagrams attached.

14. I hereby certify that the foregoing is true and correct.

**Electronic Submission #240866 verified by the BLM Well Information System  
For SAGA PETROLEUM LLC OF COLORADO, sent to the Meeker  
Committed to AFMSS for processing by JENNIFER NEWMAN on 04/02/2014 (14JEN4778SE)**

Name (Printed/Typed) TRAVIS LECK

Title OPERATIONS ENGINEER

Signature (Electronic Submission)
