RE: Request for Exception to Rule 305.a.(2) Thirty (30) Day Notice Period

Dear Mr. Williams:

Rule 305.a.(2) of the Colorado Oil and Gas Conservation Commission ("COGCC") requires that an Operator provide a "Notice of Intent to Conduct Oil and Gas Operations" to all Surface and/or Building Unit Owners located within the Buffer Zone Setback of 1000' not less than thirty (30) days prior to submitting a Form 2A Oil and Gas Location Assessment to the Director. The COGCC allows a Surface and/or Building Unit Owner to waive the thirty (30) day requirement.

Great Western Operating Company ("Great Western") has provided you with notification of our intent to locate our production facility in the Northwest Quarter (NW/4) of Section 4, Township 6 North, Range 65 West. In an effort to expedite our form(s) approval, Great Western respectfully asks that you waive the thirty (30) day notice period referenced above.

Please evidence your request to waive the thirty (30) day notice period required by COGCC Rule 305.a.(2) by signing below. If you have any questions regarding this matter, please contact Callie Fiddes at 303-398-0550.

Sincerely,

Philip Hancock
