Bill Barrett Corporation ("BBC") respectfully requests the Director to approve BBC's alternate logging program as allowed and referenced within Rule 317.o.

BBC proposes to run the following on the above-referenced well pad:

Log Type	Interval
Cased-hole neutron with gamma ray	Intermediate hole - deepest depth obtainable in the 7" casing to ground level
CBL/GR	Top of liner hanger to surface
MWD w/GR	KOP to TD
Mud	KOP to TD

The Form 5 will report that alternative logs were run per a Rule 317.o Exception. The form 5 will also include a comment that no open-hole logs were run.

Should you have any questions, please contact me at 303-312-8511. Thank you for your consideration.

Sincerely,
