Angie,

I have completed my review of the above referenced Form 2A Oil & Gas Location Assessment and have the following comments.

- 1) You have indicated there will be a Freshwater Storage Pit on this oil and gas location; therefore, I will add it to the Facilities list.
- 2) Your pipeline description is incomplete given that you have proposed six wells, and numerous oil tanks, separators, compressors, and flares for this oil and gas location. Please provide a description (number, size, material, buried or not, pressurized or not) for all oil, gas, and/or water pipelines on this oil and gas location.

Please respond to the is correspondence with the requested items by June 15, 2014. If you have any questions, please feel free to contact me. Thank you.

-

Doug,

The pipeline information is on the way.

Thank you,

Angie
