To: Angie Galvan <angie.galvan@stxra.com>, Barbara Westerdale - DNR <barbara.westerdale@state.co.us>

Angie,

I have completed my review of the above referenced Form 2A Oil & Gas Location Assessment and have the following comments.

- 1) You have indicated there will be a Freshwater Storage Pit on this oil and gas location; therefore, I will add it to the Facilities list.
- 2) Your pipeline description is incomplete given that you have proposed six wells, and numerous oil tanks, separators, compressors, and flares for this oil and gas location. Please provide a description (number, size, material, buried or not, pressurized or not) for all oil, gas, and/or water pipelines on this oil and gas location.
- 3) You have indicated that a Rule 502.b. Variance Request is being made for Rule 318.a. In speaking with Barbara Westerdale about this, what you are seeking is an 318.a. Exception Location Request. This is handled separately on the Form 2 APD and not as a Rule 502.b. Variance Request on the Form 2A. Therefore, I will uncheck that box on the Form 2A.

Please respond to the is correspondence with the requested items by June 15, 2014. If you have any questions, please feel free to contact me. Thank you.

Doug,

Thank you for this! I will get you the requested information for any pipelines. Thank you for unchecking the Variance request box!

Thank you,
Angie
