**Complaint**

Comment: **Nearby Resident complained about sound coming from the plant. On 5/27/14 COGCC Staff conducted a sound survey. An A scale survey was conducted approx. 350 feet from the location property line in the direction of the receptor which was to the north. Another C scale survey was done at approx. 25 feet from the receptor in the direction of the location which would be to south. Attached are the results of the survey.**

Tracking Num	Category	Assigned To	Description	Incident Date
200401845	NOISE	LEONARD, MIKE	The noise from the Mewbourn Gas Plant located east of Gilcrest Colorado on Cr 35 is a nuisance. These noise levels are interfering with my ability to use my residential property for it's intended purpose. The noise is also creating health and mental damage to me, my wife and our small children ages 3 and 5. The gas plant operates 24/7, 365 days a year and for periods of long duration over the last 2 years have been beyond acceptable levels.	04/10/2014
200403078	AESTHETIC S	LEONARD, MIKE	The gas plant does not meet regulation 804 regarding Visual Impact Mitigation. The Mewbourn Gas Plant is visible from HWY 85 as well as many public roads in the area. The plant is constructed of mostly reflective materials that are also contrasting against the surrounding landscape.	04/27/2014
200403078	LIGHTING	LEONARD, MIKE	regulation 803 is also being vioalted. the lighting cause galre on County Road 35 as well as the trailer house to the east of the plant that may be within 1,000 feet. DCP Midstream should offer at least a good will gesture to the surrounding property owners and the community by mitigating the light pollution regardless of structure vicinity. Although I am 3/4 of a mile away, the bright lights cause fatigue and visual stress at night which in turn is causing emotional, physical and mental stree and damage. Regulation 803 is also being vioalted during flaring. At night, the flare will light up the surrounding community for miles. Many public roadways and structures are subjected to this light pollution. It also scares the bejesus out of my kids ages 3 and 5. They scream "fire Daddy, fire" and come running inside. The above visual and light regulations are causing a decrease in property values and the quality of life for myself and the people of the State of Colorado and Weld County	04/27/2014

200406064	NOISE	LEONARD, MIKE	Mr. Ewing sent an email on May 27, 2014 saying the DCP plant is too loud	05/29/2014
