Apologies Alex,

Should have included this information.

Pit Info.

Id: Federal 31-01 Pit

Form 15 Approval: Doc No. 400609122 (Attached). Pit also went through the form 2A process (doc. No. 400586579)

BLM Sundry: Approval for pit also (Attached)

BLM Row : No. COC 075627 approved for temporary surface waterline

Landowner: By way of this E-mail, Piceance Certifies the landowner is aware of this operation and signed an agreement April 21, 2014 regarding the construction of the temporary pit and also the temporary surface waterline across his property.

Let me know if you need anything else.

Thanks Alex

Subject: Re: Encana and Piceance Energy II Water Reuse Agreement

ALL,

Encana states "the fluids will be stored at the Federal 31-01 pad location will be stored in a pit on private surface."

Piceance states "water will transferred into an approved temporary lined pit."

Please provide the Pit Facility ID and indication that the private surface owner is aware of the the proposed activities.

Thanks

Alex

Hi Alex,

Here is the submitted sundries for each party (Encana and Piceance Energy) for this Water Reuse Agreement (Addendum).

For this reuse agreement, the anticipated frac date is June 16th, if possible we would like to start moving water before then.

I appreciate all of your help and flexibility given the short timeline. My apologizes for the lack of time given for you to review.

Please let me know if you have any questions or concerns. If you need anything from me to keep these moving

forward, please do not hesitate to let me know.

Thank you,

Alexis Kubat
