Brett,

I have the location but it does not have any samples associated with it.

Arthur

Subject: RE: John Craig 4-2 Groundwater Sundry Doc # 400613441

Arthur,

Sorry about that.

The GPS locations were just outside of the 0.5 mile radius, but the actual well location is just within the 0.5 mile radius. This water well (Receipt No. 9089897, Permit No. 4347--) was sampled by LTE for Nighthawk on 6/27/2012 as COGA Voluntary Baseline Sampling Protocol and was submitted to the COGCC Database on 1/21/2014 as Facility ID No. 753094. However, I would like to make sure that the results do not get uploaded as it was prior to the rule change (COGCC Form 2 submitted on 7/12/2012) and we had a different access agreement with the landowner at the time which did not specify COGCC upload approval. If that sample is in your database I would appreciate it if it was not appended.

Drilling is going to start mid next week and I will send another agreement to the landowner specifying COGCC database upload approval and try to get the sample early next week. Will this be an issue given that we do have a voluntary sample already taken?

Thank you,

Brett M. Forkner, CISEC

Subject: John Craig 4-2 Groundwater Sundry Doc # 400613441

Brett,

There appears to be a well in the ½ mile radius for the John Craig 4-2. The well is permit number 4347. The well has been sampled in the past (although there is no data) and has a Facility ID of 75008. This well will have to be addressed in some way prior to the Sundry being approved.

Arthur,

It looks like I used the public comment when trying to communicate with you on Document No. 400613441.

Can you please see below my comment and let me know if you can approve it as is with the changes requested or if you would like for me to submit another Sundry Notice.

Also, can you please make sure that the public comment does not get published?

Thank you,

Brett M. Forkner, CISEC

A brief description is listed as follows

Item	Description
Date:	06/17/2014
Group:	Industry
User Name: [ID]	Brett Forkner[bforkner]
Form Num:	04
Subject:	Document No. 400613441
Comment:	<p>Mr. Koepsell.</p> <p>LTE has re-evaluated this sundry and would like to make the following changes. Due to further evaluation, the DWR had the water well located greater than 0.5 miles but it was actually 2,598 feet from the production well. LTE has</p> <p>sampled this water well (Receipt No. 9089897) and will submit the results once the client has reviewed.</p> <p>1 water well exists within 0.5 miles</p> <p>3 exemptions requested</p> <p>0 deemed inoperable</p>

0 landowner refused

Comments: One water well (Receipt No. 9089897) exists within 0.5 miles. LTE sampled the water well on 5/28/2014 and will submit the results to the COGCC Database.

Please let me know if this will be sufficient to have the Sundry notice approved or if you would like for me to submit a new one.

Thank you,
