Operator Comments:

Synergy originally permitted 9 wells on the Gilbert pad, however we will be drilling just 4. We are shifting the SHL location of this well and the 42-14-11NHZ to condense the well head spacing. The TPZ and BHL will remain the same. Revised Drilling Plan and WLC are attached.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
