General Comments**User Group****Comment****Comment Date**

Permit	Following statement from the operator: These 7 wells were drilled in 2013 and were carried into 2014 for completions. ECA is performing a series of tests on these 7 wells where the total amount of completion fluid volume pumped per well and total amount of Williams Fork completed are the variables. ECA feels that the nature of the completions and the subsequent results is significant in that it may increase the expected productivity of the area and thus extend our competitive advantage. Thus the request for confidential status for these seven wells for the 6 month period.	3/6/2014 5:59:47 AM
Permit	Requested operator review the confidentiality guidance document and explain why this well should be given that status.	7/7/2014 6:40:20 AM
