Description

Operator Comments:

A minor surface location change is needed to accommodate the drilling rig and avoid conflict with the existing wellhead for the DGU 1289 18-H1. The bottom hole location will remain the same. There is ample room on the pad to accommodate the move without going off the pad. Drilling is expected to initiate mid August. Verbal approval has been extended by Mr. Bill Yokley via email on August 6, 2014. A revised plat is attached.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
