Barbara,

Per our conversation today I wanted to follow up with an email regarding the two wells on the AP 21-20-695 pad that were drilled short and do not extend through their targeted formations. Below are the details for both wells, we are not adding any new objective formations with this increase in total depth.

From our discussion we will only submit Form 4's outlining the changes in TD, and we will not submit Form 5's.

Thank you for taking the time to get back with me today.

AP 422-20-695: AP# 05-045-21390

Top of Shoe (MD): 9,277'

TD Drilled: 9,333'

Initial Approved TD: 9,257'

New Proposed Depth: 9,550'

Distance to new TD : 217'

AP 522-20-695: AP# 05-045-21394

Top of Shoe (MD): 9,264'

TD Drilled: 9,315'

Initial Approved TD: 9,294'

New Proposed Depth: 9,610'

Distance to new TD : 295'
