

August 14, 2014

Mr. Matt Lepore, Director
Colorado Oil and Gas Conservation Commission
1120 Lincoln Street, Suite 801
Denver, CO 80203

RE: Anschutz State 5-62-26_25 NWSW Pad
SHL NWSW, Sec. 26, T5N-R62W, 6th PM
Weld County, Colorado

Anschutz State 5-62-26-3225CH2
Anschutz State 5-62-26-3340BH2
Anschutz State 5-62-26-3340CH2
Anschutz State 5-62-26-4841BH2
Anschutz State 5-62-26-4841CH2

Bill Barrett Corporation ("BBC") respectfully requests the Director to approve BBC's alternate logging program as allowed and referenced within Rule 317.o.

BBC proposes to run the following on one of the first wells on the above-referenced multi-well pad:

Log Type	Interval
Cased-hole neutron with gamma ray	Intermediate hole - deepest depth obtainable in the 7" casing to ground level

BBC proposes to run the following on all wells on the above-referenced multi-well pad:

Log Type	Interval
CBL/GR	Top of liner hanger to surface
MWD w/GR	KOP to TD
Mud	KOP to TD

The Form 5 will report that alternative logs were run per a Rule 317.o Exception and will identify the well (with API#, well name & well number) that was logged with the alternative logs. The form 5 will also include a comment that no open-hole logs were run.

Should you have any questions, please contact me at 303-312-8511. Thank you for your consideration.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Mary Pobuda', written over a light blue circular stamp.
