Dan,

Plz add this email to well files for API 123-13110 and 123-16315. Attachment pertains to offset wells so if you have a tab related to that use it-if not probably other or correspondence is the best title.

Thanks

Hey Mark, just to follow up our conversation, the two wells we talked about below are only drilled down to the Codell formation:

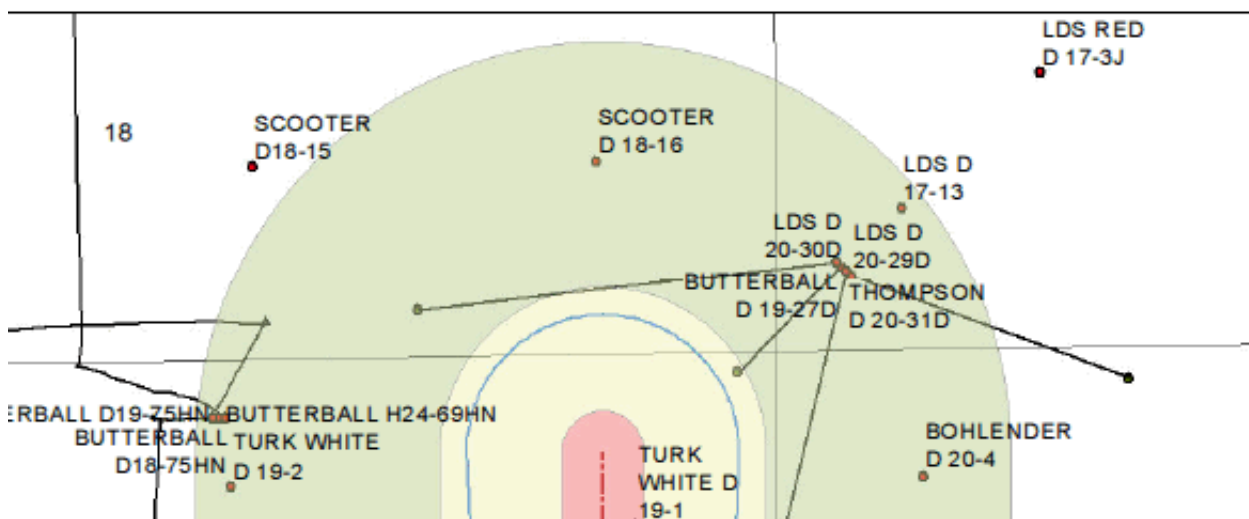

- Scooter D 18-15 (05-123-13110)
- LDS White D 19-10 (05-123-16315)
-

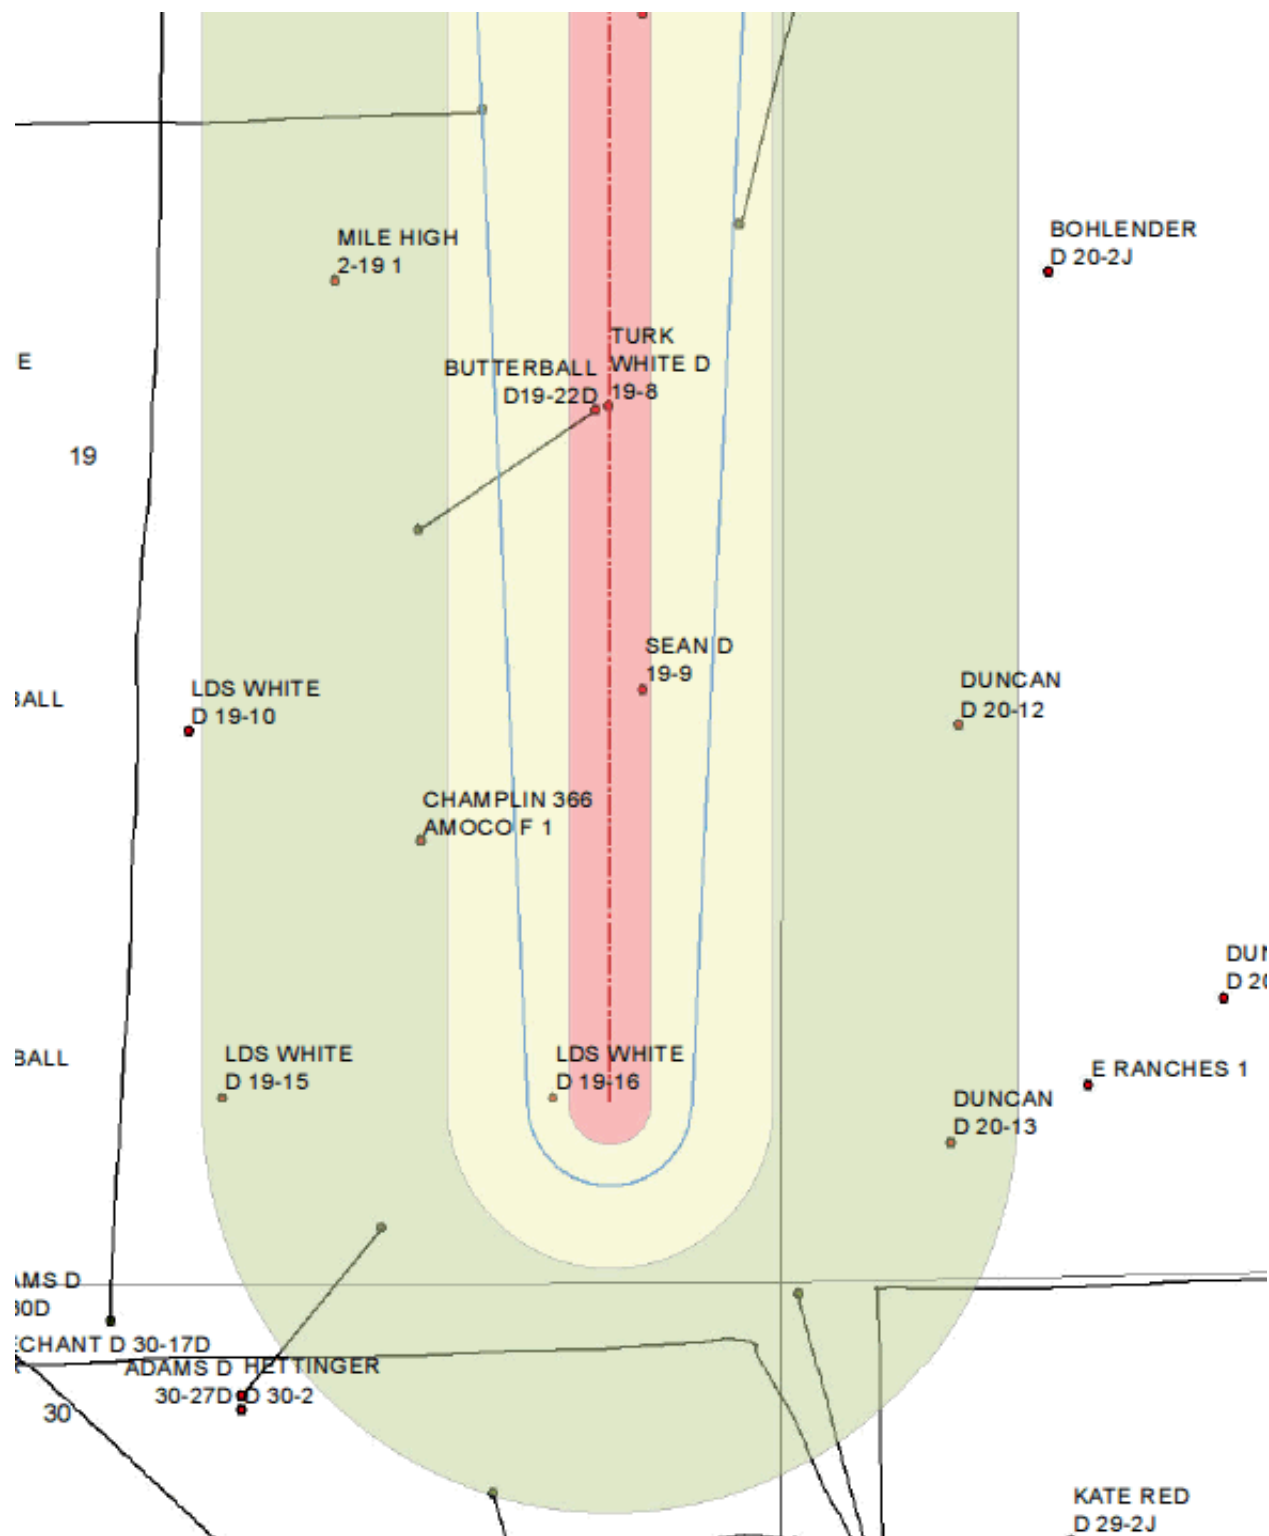

Therefore, since these do not penetrate our target formation can they be removed from our COA's?

Thanks,
