Dear Mr. Lepore.

Extraction Oil & Gas is planning on drilling wells at the above referenced surface locations, which fall within 150' from a property line. The offset surface owner also owns the location our pad will be located, but is a different tract. This exception is requested in an effort to minimize the amount of surface disturbance and the impact to surrounding land uses. Extraction has obtained written consent from the Elaine Waag Family Trust (the offset surface owner). A signed copy of the exception location waiver has been provided for your review.

Extraction respectfully requests that the COGCC approve the requested exception location request for the above referenced Waag wells. Thank you for your attention to this matter. Please contact myself at (720)420-5745 with any questions or concerns.

Sincerely,

Nick Curran  
Regulatory Technician  
Agent for Extraction Oil & Gas
