Dear Mr. Lepore,

- a. NGL Water Solutions DJ, LLC (NGL) respectfully requests that the Director grant an exception to Rule 318A.m for the above well. Per COGCC Rule 318A.m: *"No horizontal wellbore lateral shall be located less than one hundred fifty (150) feet from any existing or permitted oil or gas wellbore as illustrated in the directional survey for drilled wellbores or as illustrated in the deviated drilling plan for permitted wellbores or as otherwise reflected in the COGCC well records. This requirement may be waived in writing by the operator of the encroached upon well."* Anti-Collision has been run using SYSDRIL. NGL is the owner of the nearby well where this pad will be located and waives the Minimum intra-well distance requirement. The referenced well is API# 05-123-23038, SWD 1-8A. NGL requests the Directors approval of this Anti-Collision Waiver Request.

Sincerely,
