Operator Comments:

A DCP line was found on this location and it cannot be moved to allow for construction of the original location design. This location change does not introduce any new surface disturbance. The previously approved wells on this location have been abandoned, the tank battery has been centered in the middle of the disturbance and overall surface disturbance is decreased to 1.5 acres.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
