Subject: 20 bbl oil spill at BBC Circle B pad

To: "Allison - DNR, Rick" <rick.allison@state.co.us>

Rick – just left you a message, we had a 20 BBL oil spill out of a heater treater on our Circle B pad sometime last night or early this morning. Spill is under control and a cleanup crew is in route. Guesstimating 20 bbls, will scrape and haul to Waste Management in Ault and will have LT sample later this week or early next. Location is south of Rd 72 between 29 and 31. In meetings almost all day, but call my cell if there are any concerns. I'll file a 19 tomorrow when I have a bit more info on what happened and volume.

Rusty Frishmuth, P.E.
