NWAU #38

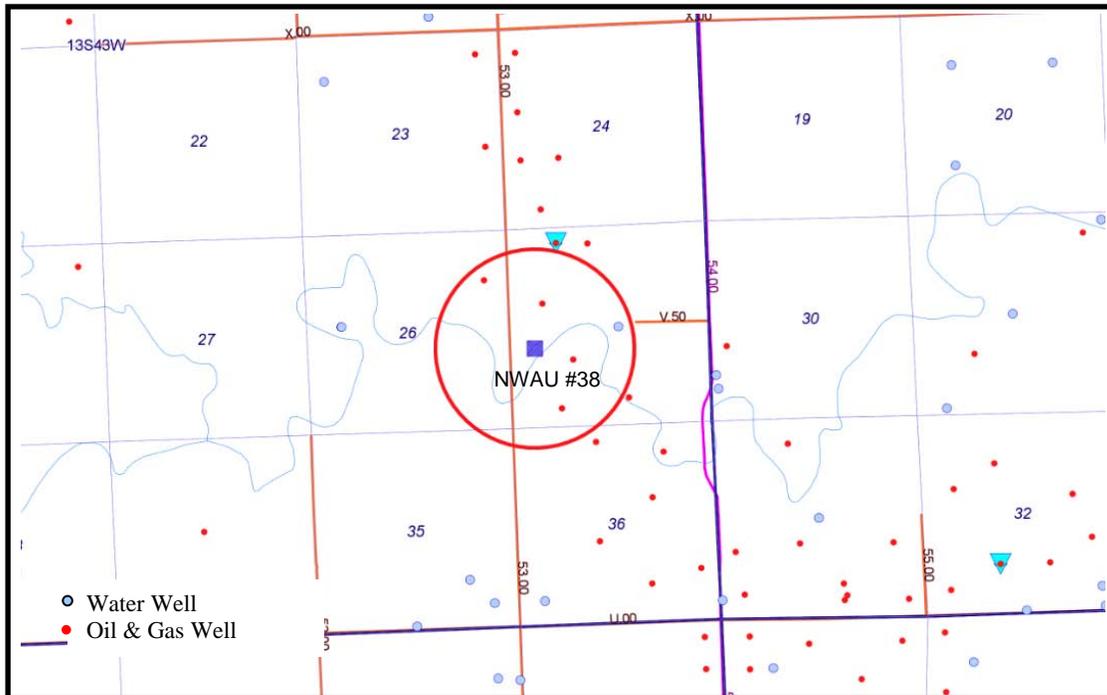

Sampling Locations Selection Results Baseline Groundwater Sampling Program

September 10, 2014

Criteria: Groundwater samples will be collected from the two closest groundwater features with reasonable access located within a ½ mile radius of the proposed well.

NWAU #38 - ½ Mile Radius Zone

Only one groundwater feature is located within the ½ mile area of the proposed well location. This water well is listed on DWR records for stock use. There were no other groundwater features found from public records.

✓ This proposed well site may meet the criteria and is therefore is a candidate for the Groundwater Sampling Program.
