RE: Baldwin #2-18 wellsite  
API#05-009-06673  
18-32S-44W, Baca County, CO

To Whom It May Concern:

Rocky Crane (Cholla Production, LLC field representative) met with Mr. Mitch Cogburn, the landowner at the above referenced well site on October 2, 2014. Mr. Cogburn would like the piles of large loose rocks at the site removed and the site smoothed. Next spring Mr. Cogburn will be working on an irrigation project on another tract of land he owns approximately two miles away. He will bring dirt excavated on that project to the Baldwin site as he needed a place to take that dirt anyway. He will spread it over the area where the large loose rocks were removed. It is better to do this type of work in the spring because any dirt spread this fall will blow away this winter. Because of the rocky nature of the Baldwin site, Mr. Cogburn states that crop has never grown there – just weeds and grass.

Mr. Cogburn also states that COGCC personnel committed an act of trespass on 8/19/14 when they entered upon his land and took photos without his permission. In the future, no COGCC personnel are to enter onto his lands without his express permission. He can be contacted at the address below. He also expressed disappointment that a COGCC representative was unable to be present at a site meeting that was previously scheduled.

The signatures below verify that the meeting took place as stated above and that the statements above summarize the discussion that took place during the meeting.

Mr. Rocky Crane  
Cimbaca Production Services, LLC
