Kris,
 Attached is the original Form 27 that was submitted in 2013 (facility 100665.pdf). I did not find a remediation number that was ever issued for this project. I have also attached the second set of soil samples that were taken in August of this year, and include the offsite sampling that was not originally completed.

Wexpro plans to continue remediation efforts and retest at a later date. Enviro Clean and oil gator will continue to be stirred into the pit.

Thank you,

Tammy Fredrickson
