OPERATOR COMMENTS AND SUBMITTAL

Comments The proposed Razor 21 SWD 1 is a vertical stratigraphic test well that will be converted to a SWD well at a later date. Whiting will not be extracting minerals from this well location. Please note the proposed well is 100' from one of Whiting's drilled wells, the Razor 21B-2809A (05-123-37767). The distance from completed portion of wellbore to nearest wellbore permitted or completed in the same formation is not applicable because Whiting will not be completing the proposed well. The distance from completed portion of wellbore to nearest unit boundary is not applicable because the Pennsylvanian formation is unspaced and Whiting will not be producing the subject well.
