Operator Comments:

In response to Inspection No. 668100349, Encana Oil & Gas (USA) Inc. respectfully states that, after review, it has been determined that the alleged spill material is clean, pot-hole material emptied from a hydro-vac truck onto the edge of the pad working surface. It is Encana's practice to empty clean material from hydro-vac trucks from pot-holing on the edge of the working surface.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
