Susan,

I have reviewed the referenced Form 2A Oil & Gas Location Assessment and have the following comment.

While you have correctly listed the 60-Shingle clay loam, 0-9 % slopes NRCS Soil Unit in the Soils section, it was not included in the NRCS Map Unit Description attachment. Please send it to me and I will add it to this Form 2A.

Please respond to this correspondence by January 3, 2015. If you have any questions, please contact me. Thank you.

Doug,

Please find attached the Soils Report for the 60-Shingle Clay loam. Sorry this was not included in the attachment for the permit.

Thank you.
