RE: Rule 318A.c Exception Location Request

**NGL Water Solutions DJ, LLC, NGL C5A UIC Well:** NESW, 1974' FSL, 2431' FWL, Sec. 29-T2N-R64W, Weld County, Colorado

Dear Mr. Lepore,

NGL Water Solutions DJ, LLC (NGL) respectfully requests that the Director grant an exception to Rule 318.A for the above well. This well is spotted as above in accordance with the wishes of the surface owner (NGL), in order to minimize the Directional drilling distance required to secure the necessary UIC well separation from the already permitted **NGL C5** API# 05-123-40645, located in the SWSW, Sec. 29-T2N-R64W. NGL is the Surface owner of the area involved and has secured a subsurface easement agreement for the directional BHL involved which is another attachment to this permit. Per COGCC Rule 318A(I).c shall not be less than 50' from an existing well. This well surface location is not located within 50' of an existing well.

Sincerely,

Paul Gottlob
