

Complaint Number: 200418532

Complaint Filed By: Ellen Readio, 12695 Oxford Road, Longmont, CO 80504, Phone (303) 774-9295

Initial Complaint Contact with Colorado Oil and Gas Conservation Commission: phone conversation with Jane Stanczyk, referred to Craig Carlile for follow up field interview.

Complaint Interview Date: December 2, 2014, Conducted by Craig Carlile, Colorado Oil and Gas Conservation Commission Field Inspector, Phone (970) 629-8279

Date of Incident: Saturday, November 29, 2014

Incident Description:

On November 29, 2014 the complainant observed a Dawson Geophysical seismic crew installing data sampling equipment (geophones) in a historically significant cemetery (Pleasant View Ridge Cemetery) across County Line Road to the East of her residence. The complainant approached the crew inquiring about their presence and appropriateness of their work activity being within the fenced boundary of the cemetery. Complainant reported that the crew responded that they were unaware that they were on cemetery property.

A member of the work crew stated to the complainant that the work was being performed for Anadarko Petroleum and offered an Anadarko business card. Two members of the crew engaged in conversation with the complainant and neither was able to provide a business card. Complainant also reported that the crew was not able to provide a work permit.

Complainant reported that the crew left the cemetery by tilting a fence post and stepping over the associated wire fence on the north side of the cemetery property. This action may have damaged/broken the fence post at its base.

The geophones and wire were present on the location at the time of the complainant interview.

Reference Information:

Cemetery is located North of Oxford Road and East of County Line Road

Closest well: API 05-123-20764 (Note: this well is relevant only due to its proximity to the incident.)
