Rick,

Here are three consultants that I am familiar with that would be able to assist Kestrel with the Travis 1 cleanup and reporting. There are several more environmental consulting firms listed on the COGCC web-site under contacts.

Just to re-emphasize, it is very important that Kestrel submit the eForm 19 as soon as possible with all available information about the release.

LT Environmental 303-433-9788, Eric Lang, <http://www.LTENV.com>Olsson Associates 303-237-2072, James Hix, <http://www.oaconsulting.com>Terracon Consultants, Inc, 303-423-3300, John Dellaport, <http://www.terracon.com>

As I mentioned, Rob Young will be the lead for COGCC on the spill reporting and remediation at this location.
Thanks,
John
