Re: Request Letter for Exception to Rule 318A.n
Sullivan 4C-26H-P268
SESE Sec 26 2N 68W
Weld County, Colorado

Dear Director Lepore:

Encana Services Company is making application for a drilling permit for the above captioned well.

As currently planned, the wellbore(s) listed below in Section A will lie within 150 feet of the horizontal lateral of the captioned well.

Section A:

API#	Well Name	Operator
123-21936	Sullivan 33-26	Encana
123-19714	Grant Brothers 32-26	Encana

As currently planned, the wellbore(s) listed below in Section B, will lie within 150 feet of the captioned well, excluding the horizontal section of the captioned well.

Section B:

API#	Well Name	Operator
123-21365	Sullivan 44-26	Encana
123-30601	Sullivan 6-8-26	Encana
123-09318	Meredith 1	K P Kaufman

Prior to drilling operations, Encana will perform an anti-collision review of existing offset wells that have the potential of being within close proximity of the proposed well. This anti-collision review may include MWD or gyro surveys and surface locations of the offset wells with included error of uncertainty per survey instrument, and compared against the proposed wellpath with its respective error of uncertainty. If current surveys do not exist for the offset wells, Encana may have gyro surveys conducted to verify bottom hole location. The proposed well will only be drilled if the anti-collision scan results indicate that there is not a risk for collision or harm to people or the environment. For the proposed well, upon conclusion of drilling operations, an as-constructed gyro survey will be submitted to COGCC with the Form 5.

Rule 318A.n of the Colorado Oil and Gas Commission's Rules and Regulations states that "no horizontal wellbore lateral shall be located less than 150 feet from any existing or permitted oil or gas wellbore." For wells listed in Section A: encroached-upon offset operators, other than Encana, must give written consent. For wells listed in Section B: encroached-upon offset operators, other than Encana, need to be notified of the upcoming development. KPK has been sent such a notice.

Encana respectfully requests the Director allow the captioned well to be drilled within 150 feet of the well(s) listed in Section A and/or Section B above.

Very truly yours,
