Ladies and Gentlemen,

Synergy Resources Corporation is planning to drill the following 10 horizontal wells.

The surface locations of Synergy's proposed wells have been staked outside of the COGCC Rule 318A.a. Greater Wattenberg Area (GWA) Drilling Window and are being permitted as exception locations. In addition, under the COGCC Rule 318A.c. any new well is to be located within 50 feet of an existing well. Synergy's proposed wells are located greater than fifty feet from the nearest Oil & Gas well. Synergy Resources Corporation respectfully requests that you, as surface owner, waive rules 318A.a. & 318A.c. in order to drill the referenced wells. Please sign and return one copy of this letter in the self-addressed stamped envelope provided herein.

Should you have any question or require additional information, please do not hesitate contacting me at (720)-420-5749.

Respectfully,

Sonia Spencer  
Project Manager Permitting  
Agent for Synergy Resources Corporation
