Paul,

In regards to the telephone conversation earlier today regarding land reclamation for the NGL C6A (document number 400726182), as this location is being permitted and is under the jurisdiction of COGCC, the location is subject to interim reclamation under the 303(b), 1002, and 1003 COGCC rules.

Attachments the above referenced 2A include reference area map and pictures as required for non-crop land reclamation, yet on the Form 2A, Current and Future land use are indicated as crop land. Please confirm the current and future land use for this location and inform COGCC if the reference area map and pictures should be removed from the application.

With your concurrence, the related location ID of 310159 will be added, and the nearest downgradient surface water feature to match the hydrology map with a ditch 874 feet from the facility.

Please let me know if you have any questions.

Thank you,

Rebecca Treitz

**Subject:** NGL C6A doc. no. 400726182

Paul,

In regards to the telephone conversation earlier today regarding land reclamation for the NGL C6A (document number 400726182), as this location is being permitted and is under the jurisdiction of COGCC, the location is subject to interim reclamation under the 303(b), 1002, and 1003 COGCC rules.

Agreed.

Attachments the above referenced 2A include reference area map and pictures as required for non-crop land reclamation, yet on the Form 2A, Current and Future land use are indicated as crop land. Please confirm the current and future land use for this location and inform COGCC if the reference area map and pictures should be removed from the application.

Since the land is zoned Agricultural I think you can remove the reference area map and pictures and change the current and future land use to crop land.

With your concurrence, the related location ID of 310159 will be added, and the nearest downgradient surface water feature to match the hydrology map with a ditch 874 feet from the facility.

Agreed.

Please let me know if you have any questions.

Thank you,

Rebecca Treitz
