Admir,

Thank you for providing the final disposal documentation and confirmation sample results for Remediation Project #6744. Based on the information provided, COGCC approves the closure request. The remediation project has been changed to closed status in the Colorado Oil & Gas Information System and no further action is required. Please keep a copy of this email as verification that the remediation project was closed.

Thanks again,

John E. Axelson, P.G.

Hello John,

Attached are the disposal records, analytical data and corresponding sample location map for the Rush Willadel Soil pit (Remediation Project #6744). I would like to request formal closure. Please let me know if there is any additional information you would like me to provide or have any questions.

Thank you for your help.
