RE: Request to Test Water Well

Dear Ms. Kinkel,

The purpose of this letter is to advise you that Nighthawk Production LLC (Nighthawk) has permitted, or is in the process of permitting an oil and gas well in the vicinity of your property near the intersection of County Road 33 and County Road 3X.

As a precaution, Nighthawk is requesting access to your water wells to obtain a baseline water sample. This baseline water sample will document the pre-existing conditions of the aquifer in the location of your water well. Should there be any problems in the future, after the oil and gas well has been completed, this baseline water data can be compared to potential future sampling results.

Nighthawk is requesting your permission for LT Environmental, Inc. (LTE) to access your property in order to have your water wells, which is known as Well Receipt No. 3647041, located in NWNE Quarter, Township 7 South, Range 54 West, Section 5, sampled by LTE and tested by an independent laboratory. The costs for sampling and testing will be paid by Nighthawk. By signing the enclosed postcard, which authorizes the sampling and testing, you are recognizing that your water wells may be inoperable for approximately one hour during testing.

Please indicate either of the options noted on the enclosed postcard, then sign and mail the postcard with pre-paid postage, to LTE, at the indicated address. Your prompt response to this request is greatly appreciated. Once we receive your consent, you will be contacted by LTE to schedule a mutually agreeable time to test your water well.

If you have any questions or concerns regarding the water well sampling on your property, please feel free to contact me at (303) 433-9788.

Sincerely,

LT ENVIRONMENTAL, INC.
