RE: Acceptance: Fourth Quarter 2014 Suckla Farms Injection Well #1 Report
Wattenberg Disposal Facility
SW/WLD/WTB 4.3

Ms. Lara-Mesa,

The Colorado Department of Public Health and Environment (the "Department") Hazardous Materials and Waste Management Division (the "Division") has received the following fourth quarter 2014 injection report and groundwater monitoring report (the "Reports") for the Wattenberg Disposal Facility (the "Facility") located at 4468 Weld County Road, Weld County, Colorado.

Quarterly Report for Suckla Farms Injection Well #1 (Fourth Quarter 2014). Prepared by: K.P. Kauffman Company, Inc. Document dated: January 12, 2015. Document received: January 12, 2015.

December 2014, Groundwater Monitoring, Wattenberg Disposal Facility, Weld County, Colorado. Prepared by: APEX Consulting Services, Inc. Document dated: January 9, 2015. Document received: January 12, 2015.

The Division has reviewed the above referenced Reports pursuant to 6 CCR 1007-2, Part 1, the *Regulations Pertaining to Solid Waste Sites and Facilities* (the "Regulations"). The Reports have been accepted by the Division and filed in the public e-filing system.

Benzene impacts to monitoring well OW-1 continue; however, concentrations appear to have lowered significantly. This well may have been impacted by a documented release to a neighboring property or may be associated with the adjacent liquids offloading area. Please continue to monitor wells OW-1 through OW-5 and submit injection information so we can monitor potential impacts to the uppermost aquifer.

Note that the Department is authorized to bill for its review of technical submittals pursuant to Section 1.7 of the *Regulations Pertaining to Solid Waste Sites and Facilities* (6 CCR 1007-2). An invoice for the Division's review of the above referenced documents will be transmitted under separate cover. Our fees and billing ceilings may be viewed online at <https://www.colorado.gov/pacific/cdphe/solid-waste-regulations>.

The Division is currently converting all files to an electronic format as outlined in the April 29, 2013 updated e-submittal policy. This effort is designed to make public information, such as facility reports, available through the

internet. Based on this effort the Solid Waste Unit is asking that deliverables are submitted pursuant to the electronic format policy.

Should you have any questions regarding determination made herein contact Eric Jacobs at 303-692-3430 or by email at eric.jacobs@state.co.us.

Sincerely,

Eric K. Jacobs, P.G.
