Comment: _____

Work occurred on the Gunderson 12-11 well to abandon the Cameo and Corcoran formations due to water production. A CIBP was set at 7597' with 5 sacks of cement. There is approximately 660' of fish in the hole which is stuck tubing. The top of the fish is at 7611'.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
