**Operator Comments:**

On the original permit for the Timbro Ranch 2-34-10-59 [doc no. 400704013] the surface casing was reported to be approximately 1750'. This reporting was incorrect. 1400' is the correct set depth for the surface casing. All casing/cementing strings are reported in this Sundry however the surface casing set depth is the only change from the original permit. Thank you.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.

**General Comments****User Group****Comment****Comment Date**

Engineer	Approved APD Doc [#400704013] increased surface casing from submitted 1400' to 1750' for aquifer protection. In this sundry operator is requesting to set only 1400' surface casing and has not specified a top of cement on the 7" casing. See COAs.	2/2/2015 2:44:48 PM
