The surface locations of Synergy's proposed wells have been staked outside of the COGCC Rule 318A.a. Greater Wattenberg Area (GWA) Drilling Window. Under the COGCC Rule 318A.c. any new twinning well is to be located within 50 feet of an existing well. The proposed Synergy wells listed above are not within 50 ft of an existing well. Please see the attached Exception Location Waiver signed by the surface owner.

Synergy respectfully requests the COGCC to review the enclosed information and approve the requested exception location waiver to rule 318A.a & 318A.c. for the Applications for Permits to Drill for the wells on the subject pad.

Many thanks

Sincerely,

Alyssa Andrews
