COMMENTS:

Due to engineering concerns and emerging data, the top of production & BHL of this well has been revised to minimize surface impact and maximize BHL efficiencies. Noble Energy certifies that there are no other changes to the permitted well, other than the BHL, the top of production, and the total depth of the well. The Lease, Spacing, and Pooling information, and SHL locations will not change. The nearest well will be the Johnson A13-15 (API:123- 26645). Noble Energy Inc. requests approval of a Rule 318.A.r. variance; wellhead lateral is to be located less than 150' from an existing wellbore. Request attached.
