RE: Request for Exception to Rule 317.p Requirement to Run Open-Hole Logs

Burr FD Pad SESE Sec 24-T6N-R67W, 6th PM, Weld County, CO

Well Name	API #
Burr FD 23-339HN	Pending
Burr FD 23-339HC	Pending
Burr FD 23-219HN	05-123-40883
Burr FD 23-222HN	05-123-40865
Burr FD 23-259HC	05-123-40876
Burr FD 23-299HN	05-123-40878
Burr FD 23-379HN	05-123-40872
Burr FD 23-382HN	05-123-40877

Director Lepore,

Great Western Operating Company, LLC intends to drill the above referenced oil and gas wells. Great Western respectfully requests the Director to approve an exception to Rule 317.p for the proposed wells. Suitable gamma ray and resistivity logs exist in the records from prior wells drilled in the vicinity of the surface-hole locations of the proposed new wells.

The logs from the following well are proposed to provide adequate log coverage to characterize the geology of the area:

Offset Well Name & Number	API Number	Distance from proposed wells	Azimuth (Degrees)	COGCC Well File Document Number
Deshazo 24-44	05-123-23921-00	200'	45	136910

The Drilling Completion Report – Form 5 submitted for each of the existing and proposed wells will indicate that the open hole logs from the DeShazo 24-44 well were used to meet the requirements of Rule 317.p.

Great Western respectfully requests that the COGCC review the enclosed information and approve an exception to Rule 317.p for the proposed wells referenced above.

Thank you for your attention to this matter.

Sincerely,

Allison Linz
