Operator Comments:

To ensure coverage of the Upper Pierre Aquifer Noble requests revisions to the subject permit. Please see the Engineering/Environmental tab for details. Noble proposes to raise the intermediate 7" casing cement approximately 50' further into the surface casing in lieu of lowering the 9-5/8" surface casing. At the time of spud, Noble will determine whether to lower the surface casing or increase the intermediate casing cement volume as previously noted.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
