Mickenzie,

I have reviewed the referenced Form 2A Oil & Gas Location Assessment and have the following comments.

- 1) This Form 2A has been submitted to amend existing Location ID#416447. It appears that two wells and associated production facilities are being added to this existing Oil & Gas Location. Please provide your concurrence to add an Operator comment to the Form 2A that indicates this is the change/addition to this existing Oil & Gas Location.
- 2) A review of your Multi-Well Plan indicates it is missing some required information. Per the COGCC Guidance Document on the Multi-Well Plan, the plan must have the same number of wells as listed in the Facilities section of the Form 2A; the total number of wells includes existing and proposed wells. The submitted Multi-Well Plan only depicts the two proposed wells and their wellbore trajectory and bottom-hole location. Please revise the Multi-Well Plan to include the existing Fox Creek #2-25H well.

Please respond to this correspondence by April 3, 2015. If you have any questions, please contact me. Thank you.

Mickenzie,

It has been more than a month since I sent my correspondence to you regarding the Fox Creek 505-2501H Form 2A (Doc #400747387) and I have not received any response from you. Please reply to my original correspondence by April 16, 2015 or I will Withdraw this Form 2A. Thank you.

Doug –

Mickenzie is on maternity leave and I am remiss at checking her email. Kyle is looking into you question today and will respond shortly.

Thank you,

*Barbara Griswold*

Doug,

Please find attached an updated Multi Well Plan for the referenced well.

Thanks.
