Talked to Dan Baley Blake Brunton LL

have pumpjack (KPK) in alfalfa field. want to put well ~400ft south of KPK well.

Fields too far from KPK.

they want to increase tank size at battery. went from small to bigger one 8' high & 12' wide. note kennebecan and operator.

Carrie Byers → Encana Supervisor sized new tank would be big enough for all future use would lose 120 bales of alfalfa per year if road is as proposed

elect. box located south of KPK well

If 1000ft south would be ok can't plant alfalfa - alfalfa. must plant oats or other crop in between. Get much less crop yield with oats than ~~alfalfa~~ alfalfa

Paper given to landowner
