Randall,

Based on the information provided, COGCC has changed Remediation Project #4296 (Doc #1984005) to closed status and no further action is required. In addition, the closure date for Facility ID #442091 was revised to 4/18/2008 to correspond with the last application of bentonitic fluids at the location. Please keep a copy of this email as verification that both the remediation and related facility were properly closed.

Thank you for providing the final closure documentation.
Sincerely,

John E. Axelson, P.G.
East Environmental Supervisor

RE: Dilka Farms
NWNW 6 – T6N – R63W
Remediation #4296
Facility #442091

John:

As per our previous conversations, please find attached a closure request and supporting documentation for the Dilka Farms Beneficial Reuse of E&P Waste Site.

Your assistance in this matter is greatly appreciated. Please call if there are any questions or concerns.
Regards,
