This Form 4 Sundry Notice is being provided as notification of a water transfer from OXY USA WTP LP (OXY) to WPX Energy Rocky Mountain LLC (WPX) per the attached "Master Production Water Custody Transfer Agreement" and "Production Water Reuse and Waste Minimization Plan."

WPX has a need for up to 20,000 barrels of produced water for completion operations in Garfield County, Colorado. WPX would like to transfer produced water from OXY for beneficial re-use. The water will be transferred from OXY's Pond G (Facility ID 335925, SESW 28 5S 97W) via existing water transfer lines operated by WPX and OXY. Transfer of produced water will begin on Thursday, July 9, and terminate within 90 days with an option for extension.

The transferring company (OXY) shall maintain all regulatory responsibility, custody and control for all water until such time it is transferred into WPX's existing water lines. This transfer will occur via pipeline risers in both water lines located within the pipelines' right-of-way (custody transfer point). Exact location of the custody transfer point is Lat. 39.541631 / Long. -108.231430, located on OXY property. Once water reaches the custody transfer point and has been transferred into WPX's water distribution pipeline, the receiving company will assume all regulatory responsibility, custody, and control of the water (see attached map for additional detail on the custody transfer point).

A Form 4 Sundry Notice is being submitted by WPX also to document the transfer notification.

## H2S REPORTING
