

P & A Risk Assessment for Catamount Energy Partners Morales 34-6-6U#1

1 P&A well exists within a quarter Mile of the surface location:

API # 05-067-05554-00-00 is 997' away.

The well was drilled by Consolidated Oil & Gas in 1959. TD for the well was 250'. No casing was ran.

The well was Plugged and abandoned on 8/26/1960.

Very little data is known about such well, however at a depth of 250' the proposed well will not impact this historical P&A'd wellbore.
