Reinspection

A photograph of an oil pumpjack in a desert environment. The pumpjack is a large, grey metal structure with orange safety railings. To the left of the pumpjack, there are two large white storage tanks. In the foreground, a long, dark, cylindrical object, possibly a pipe or a wellhead, runs diagonally across the frame. The ground is dry and sandy. The sky is clear and blue. A sign is placed on the ground near the pumpjack, providing information about the well and the company.
