28. Describe Proposed or Completed Operation

Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all markers and zones. Attach the Bond under which the work will be performed or provide the Bond Number on file pertinent with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.

Axia Energy and OXY USA Inc. have signed a farm-out agreement for the Hightower 20-11 pad, COGCC location #334532. Land was cleared for this pad but no infrastructure was added, and no wells were drilled on this pad. A copy of the COGCC Form 10 to transfer the operator from Oxy to Axia is attached.

I hereby certify that the foregoing is true and correct.
