Kevin,

As discussed earlier today, COGCC is requesting (per Rule 901.c.) that Young Gas Storage Company LTD, submit a Form 27 - Site Investigation and Remediation Workplan to verify that shallow groundwater was not impacted by a release from the failure of the subject well.

Please submit the Form 27 with a plan to characterize shallow groundwater conditions and perform sampling and analysis by August 21, 2015, with an implementation schedule to complete and report the work no later than September 25, 2015. Submit the Form 27 to Robert Young, the northeast area Environmental Protection Specialist.

If you have any questions or need additional information, please let Rob or me know.

Thank you,

John E. Axelson, P.G.
