Mickenzie,

I have reviewed the referenced Form 2A Oil & Gas Location Assessment and have the following comments.

1) In the Water Resources section you have indicated the estimated depth to groundwater is 320 feet based on water well permit #106305. A review of that water well permit indicates 320 feet is the total depth of the well and the static water level is 40 feet. Therefore, I would like to change the estimated depth to groundwater from 320 feet to 40 feet.

2) In the Water Resources section you have indicated that YES the location is in a riparian area and YES an Army Corp of Engineers (ACOE) Section 404 permit has been filed. During my review, I did not see any evidence that this proposed oil and gas location is in a riparian area and no ACOE Section 404 permit is attached to the Form 2A. Please confirm whether these two questions should have been checked YES or NO. If YES, please provide the ACOE Section 404 permit.

Please respond to this correspondence by August 23, 2015. If you have any questions, please contact me. Thank you.

Mickenzie,

I have reviewed the referenced Form 2A Oil & Gas Location Assessment and have the following comments.

1) In the Water Resources section you have indicated the estimated depth to groundwater is 320 feet based on water well permit #106305. Yes, please change to 40'.

2) In the Water Resources section you have indicated that YES the location is in a riparian area and YES an Army Corp of Engineers (ACOE) Section 404 permit has been filed. During my review, I did not see any evidence that this proposed oil and gas location is in a riparian area and no ACOE Section 404 permit is attached to the Form 2A. Please confirm whether these two questions should have been checked YES or NO. If YES, please provide the ACOE Section 404 permit.

This was a mis-click on my part. NO should be selected. Please correct.

Please respond to this correspondence by August 23, 2015. If you have any questions, please contact me. Thank you.
